AIRCRAFT MECHANIC

PROFILE

Licensed Airframe and Power Plant Mechanic with hands-on training in structural repair and composites.

Experience in A&P inspections, including the repair and maintenance of systems for the DC-10, DC-9, 747, and 727. Simulators include the 707 cockpit procedural trainer and the 747 and L1011 maintenance videos.

Performed repairs on the Cessna 150, 152, 172, 172RG, and various Beechcraft and Piper models.

Conversant in Spanish; familiar with Microsoft Windows® operating systems and Microsoft Works.

Skilled in the use of lathes and standard shop equipment, as well as:

- Fiberglass and bonded honeycomb repair.
- Weighing and balancing of control surfaces.
- Removal and replacement of skin panels and aircraft fasteners.
- Manufacture and testing of control cables.
- Comprehensive modification of aircraft structures.
- Corrosion control and aircraft painting.
